

Aim: To revise interpretation skills using a simple pictogram.

The graph shows the colour of cars owned by a class at Anytown High School.

Use the graph above to answer the questions

- How many people have red cars? _____
- How many people have black cars? _____
- How many people have blue cars? _____
- How many people have silver cars? _____
- Two more pupils joined the class. They both have yellow cars. Add them to the graph.
